

ENISO Comprehensive Academic & Administrative Guide 2026

Spring 2026

Contents

1	PART 1: Administrative Procedures	2
1.1	1.1 Real University Inscription Procedure (Tunisia)	2
1.2	1.2 Real Internship (Stage) Procedure	2
2	PART 2: Informatique Appliquée (IA) Department	3
2.1	Academic Structure	3
2.2	IA General Weekly Class Schedule	3
2.3	IA Exam Timetable (Devoirs Surveillés - March 2026)	3
3	PART 3: Electronique Industrielle (EI) Department	3
3.1	Academic Structure	3
3.2	EI General Weekly Class Schedule	3
3.3	EI Exam Timetable (Devoirs Surveillés - March 2026)	4
4	PART 4: Télécommunications Embarquées (GTE) Department	4
4.1	Academic Structure	4
4.2	GTE General Weekly Class Schedule	4
4.3	GTE Exam Timetable (Devoirs Surveillés - March 2026)	4
5	PART 5: Mécanique Productique (GMP) Department	4
5.1	Academic Structure	4
5.2	GMP General Weekly Class Schedule	4
5.3	GMP Exam Timetable (Devoirs Surveillés - March 2026)	5

1 PART 1: Administrative Procedures

1.1 1.1 Real University Inscription Procedure (Tunisia)

*The official enrollment process for engineering students requires passing through the national university platform and the local *scolarité* office.*

1. **Online Payment:** Visit the official portal inscription.tn. Select “Université de Sousse” → “ENISO”. Pay the university fees using an e-Dinar card or a national bank card.
2. **Print Receipt:** Download and print the “Quittance de paiement” (Payment receipt) which is mandatory for your physical dossier.
3. **Medical Visit (1st Years):** Complete the university medical check-up at the designated center to obtain the required medical certificate.
4. **Physical Dossier Submission (Scolarité):** Submit the following documents to the ENISO administration:
 - 2 printed copies of the inscription.tn receipt.
 - 4 recent ID photos.
 - 1 copy of the National Identity Card (CIN).
 - The medical certificate.
 - 1 stamped envelope with your address.
5. **Carte d’Étudiant:** Once the dossier is validated, you will receive your student card for the 2025/2026 academic year.

1.2 1.2 Real Internship (Stage) Procedure

Mandatory summer internships for engineering students based on ENISO guidelines (GSP-IN-01-01).

Stage Initiation (1st Year) & Stage Ingénieur (2nd Year)

- **Duration:** Minimum 1 month (4 weeks) during the summer holidays.
- **Workflow:**
 1. Obtain the **Lettre d’Appui** (GSP-FR-01-01) signed by the Director of Internships (Adel Bouallegue).
 2. Present it to a company. Once accepted, the company fills out the **Fiche Entreprise** (GSP-FR-15-00) specifying the supervisor, dates, and mission.
 3. The student inputs this data into the official ENISO Microsoft Forms platform.
 4. Retrieve the **Lettre d’Affectation / Convention de stage** after 2 working days.
 5. Complete the internship, updating a daily journal and having it validated weekly.
- **Deliverables:** 25-30 page typed report (Times New Roman 12, simple spacing), original Attestation de Stage, Fiche d’autoévaluation, Fiche d’appréciation from the company, and an updated CV.

Stage PFE (3rd Year)

Projet de Fin d’Études takes place over Semester 2 (Spring) of the 3rd year. Students do not have traditional classes or devoirs surveillés during this period; they are embedded full-time in a company or research lab.

2 PART 2: Informatique Appliquée (IA) Department

2.1 Academic Structure

- **1st Year Groups:** IA 1.1, IA 1.2
- **2nd Year Groups:** IA 2.1, IA 2.2, IA 2.3
- **3rd Year Groups:** IA 3.1 (PFE Full-time)

2.2 IA General Weekly Class Schedule

Standard Blocks: 08:30-10:00, 10:15-11:45, 12:00-13:30, 14:45-16:15.

- **IA 1st Year:** Focuses on Base Programming, Math/Stats, and Hardware Basics. Classes include Circuits Programmables (FPGA), Automatique linéaire échantillonné, and Apprentissage statistiques.
- **IA 2nd Year:** Advanced Software and Embedded Systems. Classes include Vision Artificielle, Théorie de la compilation, and OS embarqués et temps réel.

2.3 IA Exam Timetable (Devoirs Surveillés - March 2026)

Date	Time	Year 1 (IA 1.1, 1.2)	Year 2 (IA 2.1, 2.2, 2.3)
09/03/2026	09h00-10h30	Circuits Programmables	Vision Artificielle
09/03/2026	11h00-12h30	Apprentissage statistiques	Théorie de la compilation
10/03/2026	09h00-10h30	-	OS embarqués et temps réel
13/03/2026	09h00-10h30	Automatique linéaire échantillonné	-

3 PART 3: Electronique Industrielle (EI) Department

3.1 Academic Structure

- **1st Year Groups:** EI 1.1, EI 1.2
- **2nd Year Groups:** EI 2.1, EI 2.2, EI 2.3
- **3rd Year Groups:** EI 3.1 (PFE Full-time)

3.2 EI General Weekly Class Schedule

- **EI 1st Year:** Electronique Analogique II, Schémas et Protection Electrique, Modélisation et vérification. Labs are heavily featured in the afternoons.
- **EI 2nd Year:** Automotive communication protocoles, Techniques avancées pour systèmes intelligents, Transmission de signal.

Date	Time	Year 1 (EI 1.1, 1.2)	Year 2 (EI 2.1, EI 2.2, EI 2.3)
09/03/2026	09h00-10h30	Modélisation et vérification	Automotive comm. protocoles
09/03/2026	11h00-12h30	Apprentissage statistiques	Transmission de signal
10/03/2026	09h00-10h30	Electronique Analogique II	-
11/03/2026	09h00-10h30	Schémas et Protection Electrique	Techniques avancées
12/03/2026	09h00-10h30	Electronique de puissance	-
13/03/2026	09h00-10h30	-	Actionneurs électriques

3.3 EI Exam Timetable (Devoirs Surveillés - March 2026)

4 PART 4: Télécommunications Embarquées (GTE) Department

4.1 Academic Structure

- **1st Year Groups:** GTE 1.1, GTE 1.2
- **2nd Year Groups:** GTE 2.1, GTE 2.2
- **3rd Year Groups:** GTE 3.1 (PFE Full-time)

4.2 GTE General Weekly Class Schedule

- **GTE 1st Year:** Circuits Programmables (FPGA), Core Math, Programming Basics.
- **GTE 2nd Year:** Sécurité des réseaux, Réseaux Optiques, Cloud Computing, Big Data.

4.3 GTE Exam Timetable (Devoirs Surveillés - March 2026)

Date	Time	Year 1 (GTE 1.1, 1.2)	Year 2 (GTE 2.1, 2.2)
09/03/2026	09h00-10h30	Circuits Programmables/FPGA	-
09/03/2026	11h00-12h30	Apprentissage statistiques	-
10/03/2026	09h00-10h30	-	Sécurité des réseaux
11/03/2026	09h00-10h30	-	Réseaux Optiques
12/03/2026	09h00-10h30	-	Cloud Computing
13/03/2026	09h00-10h30	-	Big Data

5 PART 5: Mécanique Productique (GMP) Department

5.1 Academic Structure

- **1st Year Groups:** GMP 1.1, GMP 1.2
- **2nd Year Groups:** GMP 2.1, GMP 2.2
- **3rd Year Groups:** GMP 3.1 (PFE Full-time)

5.2 GMP General Weekly Class Schedule

- **GMP 1st Year:** Informatique industriel temps réel, RDM (Résistance des matériaux).
- **GMP 2nd Year:** Comportement mécanique des matériaux, Machines volumétriques.

5.3 GMP Exam Timetable (Devoirs Surveillés - March 2026)

Date	Time	Year 1 (GMP 1.1, 1.2)	Year 2 (GMP 2.1, 2.2)
09/03/2026	09h00-10h30	Info. industriel temps réel	-
09/03/2026	11h00-12h30	Apprentissage statistiques	Comportement des matériaux
